## **OVERVIEW:**

Mt. Manaslu, The 8th highest peak in the world which is elevated at the height of 8,163m (26,781 ft) above sea level is located in the ridges of Mansiri Himal in the Gorkha District of Nepal. Regarded as the “mountain of the spirit”, Mt. Manaslu is identified as Mt. Kutung in Tibet. This peak lies about 64km east of Mount Annapurna. Two mountaineers Toshio Imanishi and Gyalzen Norbu ascended to the top on 9th May 1956. Although there were several expeditions to Manaslu earlier expedition to Manaslu was legally unlocked only in 1991. Since, the inaugural expedition by H.W Tilman, Mt Manaslu has been popular among tough trekkers, and this region is still constrained to limited clusters and only well-structured

trekkers in the group can trek here. Manaslu region is very isolated resulting in challenging rescuing.

The ascending is more technical than that of other peaks like Cho Oyu and Shisha Pangma. The base camp of Manaslu lies at a height of 4700m. Long crests of the mountain offer the possibility to be scaled from every direction to conclude to the top that is sharply above its neighboring scenes. Among six routes, the route starting from the south is hard-hitting while the northeast face route is the most common. Every year Seven Summit Treks organize a large number of successive expeditions of Mt. Manaslu.

There is a fine line between adventure and blatant risk. Mountaineering is an adventure trip that carries an intrinsic danger and the nature of travel implies things don't generally go according to plan, which is the reason why we require every one of our clients to get acceptable and proper insurance.

Due to unanticipated reasons, for example, injury, family issues, work commitments, etc., clients may need to cancel their trip before the start or during the expedition. Considering these factors, it's better to be prepared for the possibilities.

As mentioned in the Terms and Conditions of Seven Summit Treks, the agency is exempt from being liable for different expenses that may occur in case of

different emergencies or unforeseen situations. In addition to that, a foreigner isn't allowed to purchase insurance on Nepali soil. Both facts point out the requirement of a client to purchase an elaborate travel insurance plan in their place of origin that protects their interest in case of trip cancellation, helicopter evacuation, medical emergencies, other illnesses, lost luggage, theft, disasters, death, and so on.

You are free to pick your insurer however look for an arrangement that covers trip postponement and cancellation, rescue, and covers medical as well. Guarantee it doesn't have limitations on the height you will climb, prohibitions on the exercises you are embracing, or the places you will be visiting. Protect yourself with the right insurance so you can go on your

expedition with peace of mind and focus more on your climbing.

Please make sure to send us a copy of your insurance policy before you start your expedition so that we can assist you in any case of an emergency.
